TRANSITION PLAN

The transition plan, incorporated herein, shall list departments and/or individuals responsible for examining Clark County facilities and identify where improvements are needed. Projects associated costs and proposed completion dates will be summarized and may be viewed via corresponding links.

TRANSITION PLANS – RESPONSIBILITIES

1. Clark County ADA Coordinator - Facilitator
2. Facilities Management - Responsible for review of existing County structures to identify improvements, associated costs and proposed timeline for completion.
 - A. The initial Clark County ADA facility survey and transition plan was conducted in 1992. Survey documents may be accessed by contacting the Clark County ADA Compliance Office. Most of the ADA accessibility requirements have since been rectified with the development and construction of the Clark County government services campus. However, Clark County is continuing to assess existing and newly acquired facilities. The following transition plan identifies proposed building alterations.
 - B. A revised checklist for readily achievable barrier removal has been developed to meet current building code requirements.
 - C. Address improvements on county buildings and parking lots; excluding county parks and associated facilities.
3. Vancouver-Clark Parks Department
 - A. Complete accessibility surveys for all county parks.

B. Address improvements on county parks and parking lots.

BUILDING - TRANSITION PLANS

COUNTY PARK FACILITIES - TRANSITION PLANS

- Please see Appendix B ([Link](#))

PARKING LOTS - TRANSITION PLANS

- Please see Appendix C ([Link](#))

COMMUNITY SIDEWALKS - TRANSITION PLAN

- Please See Appendix D ([Link](#))

COMMUNITY SIDEWALKS - RESPONSIBILITIES

Following are the responsibilities and schedule for providing curb cuts for streets, roads and walkways under the authority of Clark County.

1. Facilitator – Clark County ADA Coordinator.
2. Clark County Public Works – Develop and implement transition plan for new and existing sidewalks with community input.
